IUT INFO AIX (Computer Science)   *Aix-en-Provence*

EXPERIENCE

UX Designer - Mobile Developer   oct 2018 - mars 2019
Thales

Realisation of multiples mobile applications : UI, UX, mockup, prototype, workshop, development (Android SDK, React-Native framework).

Mobile developer *apprenticeship*   sept 2017 - sept 2018
Air France

Realisation of a Proof Of Concept to assess the possibility of migrating native iOS App to Ionic 3.

PROJECTS

Cocktailize - *Personnal project*   **Swift**

This app generate all the cocktails you can make with the ingredients you have. I did the UI/UX, the mockups, the prtotyping and the development. *Available in the App Store*

Vocal Assistant - *Thales*   **Android SDK**

The app is an assistant designed to help the technicians during their work. The user ask a question by speaking to the app and it give the appropriate answer if it finds one in its local DataBase.
